

PCS rebalot results

More than 32,000 PCS members in the civil service have been re-balloted to join our national strike action over pay, pensions, changes to the Civil Service Compensation Scheme and jobs.

In our record-breaking ballot results announced in November we broke through the 50% legal strike threshold in more than 100 employers.

9 groups of members where the turnout was just below 50% were asked again through a **postal ballot** if they support strike action in support of our campaign for a pay rise of at least 10%, pensions justice, job security and no cuts to civil service redundancy pay.

If they have passed the 50% threshold, they will be able to join the strategic strike action when it is called in their employer area and also the all-member action on **15 March**.

Employer	No. of people entitled to vote	Yes	No	Blank	Spoilt	Received	Sum of yes and no	Turnout %	Yes %	No%
