

26 August 2023

Register your vote

Tell us you've voted so we can maximise turnout and focus on contacting members who haven't yet voted.

Registering your vote means we can get a clear idea of how many members have voted so far.

Over the next few days we will be trying to contact all members who haven't registered that they've voted to make sure that everyone's voice is heard and democratic engagement is high.

How to tell us you've voted

- If you vote online (via Civica) you will be taken to a screen asking if you're happy for Civica to tell PCS you've voted (*not* whether you voted yes or no)
- If you didn't do this when you voted online, you can tell your rep at work instead. Find out who your local rep is by logging in to [PCS Digital](#).
- Or a PCS volunteer will try to call you to remind you to vote. The number that will come up on your mobile will be 0207 801 2798.

We won't ask you whether you've voted yes or no, just whether you have voted. But we encourage members to VOTE YES to back our campaign.

Please let PCS know you've voted so that volunteers can concentrate on contacting members who haven't voted.
