TUPE Consultation starts for Mitie 'Affiliate' cluster staff in soft and hard FM

Meetings took place on 21 September for staff transferring to ISS or Atalian Servest on 1 November.

The first consultation meetings took place today (21) for Mitie staff working in soft facilities management (cleaners, catering, post room, front of house, messengers, etc, who support other staff) and hard FM (engineers, electricians, plumbers, handymen, etc., who service the building itself) who will be transferring to ISS or Atalian Servest. A report on the meetings will be issued shortly.

There is a single set of consultation talks for **all** staff transferring to ISS, and a separate set of consultation talks for **all** staff transferring to Atalian Servest. These are scheduled weekly. Regular updates will be issued as talks progress.

If you have any questions about the process, please speak to your local elected rep. You can find their details by logging in to [PCS Digital](#).
