# ISS members continue with industrial action

PCS members working for the outsourced facilities management company ISS will take further Industrial action next week (9-13 October)

Security, cleaners and support staff in London will take action over pay. ISS has offered members just 2.2%, well below inflation. We are also calling for an end to outsourcing, job security and for the company to formally recognise PCS. ISS has yet to agree to further talks.

The new action follows [the well-supported strike](#) in September, when members took action for five days.

Picket lines will take place from 7am to 10am on Monday (9) at 1 Victoria Street in London and from 8am to 10am on Thursday (12) at 3-8 Whitehall, London.

Please come along and show your support.
