# PCS Strike Schools: What you need to know for the National Ballot

All PCS reps, advocates and members included in the national ballot are invited to the next series of Strike School sessions starting from 18 March.

Our new series of strike schools coincide with the [launch of the national ballot](#) of members working for 171 employers in the civil service and related areas. The Scottish Sector is not included. [Check our list to see if your employer is included in the ballot.](#)

Strike school sessions will cover a variety of issues, primarily focusing on:

- The importance of getting the vote out and what branches need to do;
- Information on the levy;
- Barriers to getting the vote out and how to overcome them;
- Talking to members;
- Digital tools and Callhub;
- Key dates and branch planning;
- Resources.

Dates and times of your local strike school are below, with online registration links (login to [PCS Digital](#) required).
