R&C Conference 2024: Motions book published

The PCS R&C Group report, listing the policy motions to be discussed at or group conference in May, has been published.

PCS published the Revenue and Customs (R&C) Group Standing Orders Committee Report No.1, which contains the agenda and the motions to be discussed at the union's Group Conference in Brighton from 20-21 May. [Download and read the report.](#)

These motions were submitted by branches across HMRC and VOA, and if agreed, these resolutions will become union policy in the department and agency.

Under the union's rules, your branch will need to hold an all-members' meeting ahead of conference, to allow you the opportunity to discuss these motions, and direct your branch delegates on how they should vote. Look out for details of your branch 'mandate meeting', and come along to play your part in the union's democratic processes.
