Location

ICTU Offices

Who's it for

Reps and Full Time Officers based in Northern Ireland

Many women will experience menopause symptoms, which can be a real challenge and impact their day to day lives. This four-day course has been designed to create greater awareness of the menopause as a workplace issue. The course aims to:

- Create awareness of the menopause and the symptoms women can experience
- Help reps consider various workplace factors that may negatively impact on workers experiencing the menopause
- Consider practices and environments with the workplace that may put the health and safety of menopausal women at risk and/or may be considered discrimination against workers experiencing the menopause
- Consider best practice for workplaces and unions to tackle the workplace issues facing workers experiencing the menopause.
