PCS strikers in Liverpool win pay rise of over 10%

PCS members working at Hinduja Global Solutions in Liverpool have called off strike action after securing a pay rise of over 10%.

The 80 workers, employed by HGS to run the contact centre and back-office functions of the government's Disclosure and Barring Service (DBS), had taken six weeks' strike action over pay and working conditions.

Now they have voted to accept a two-year pay offer that will see them receiving an award more in line with inflation.

PCS general secretary Mark Serwotka said: "I'm immensely proud of our members at HGS for their fight and resilience during this long-running dispute.

"To secure this pay rise when the initial offer amounted to just 3.5% is a great victory and sends out a positive message to our [100,000 members taking strike action next week](#).

"When our members stand up for themselves and stick together it shows they can win the pay rise they deserve."
